DPF Pressurized Tank Spray Gun

Description

Powder-coated aluminum tank with commercially available compressed air connection and non-return valve. Filling capacity 1 liter. By means of a control valve, the amount of liquid applied can be manually adjusted. The air fed into the spray stream atomizes the liquid very finely.

Areas of application

For the application of Pro-Line Diesel Particulate Filter Cleaner and Pro-Line Diesel Particulate Filter Purge with the specially developed DPF-Probe with 5 interchangeable tips (part no. 7945)
